

Dr. R. P. Shrivastava

Professor, School of Advanced Computing

Email: rajeev.s@sageuniversity.edu.in

Contact No: +91-9755536088

Total Experience: 41 years

Academics: 6 years | Research & Development: 5 years | Government & Industry: 30 years

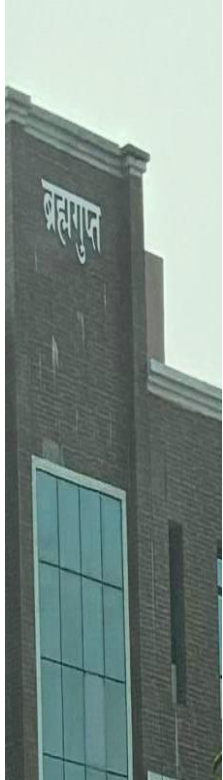

Areas of Interest:

Pure, Applied, and Computational Mathematics; Data Science; Networks; Artificial Intelligence; Machine Learning; Software Engineering & Project Management with applications to Finance; Construction (Road & Industrial Infrastructure); Healthcare; Energy; Consumer Technology; International Development; Harnessing AI to change the world.

Brief Profile:

Dr. R. P. Shrivastava is an accomplished professional with extensive expertise in applied mathematics and computer technology. He has served various reputable organizations as an MIS Expert, Computer Programmer, and faculty member in computer technology and related subjects. His professional journey includes significant contributions to journals, conferences, seminars, symposiums, and technical sessions. Additionally, he has authored several books and chapters.

Dr. Shrivastava's experience encompasses the successful implementation of complex scientific applications and functional software-based information systems. He has a strong track record of handling large-scale and challenging projects, showcasing his proficiency in applied mathematics and computing. As an active member of the Computer Society of India, he remains engaged with the latest developments in the field. His extensive experience and contributions make him a prominent figure in the advanced computing arena.
